**NOTE: The 2020 ACS was canceled due to the impact of the COVID-19 pandemic, so the statistics for the most recent ACS were compared to the 2019 ACS.**

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error, which may be relatively large for smaller geographies and population sub-groups. In addition to sampling variability, the ACS estimates are subject to nonsampling error.
